

Ward 3B - post-op day 2

Tom seen on morning round. Os stable, afebrile.

Biopsy site settled, tolerating light diet.

Mum (Sandra) at bedside overnight, anxious re: results.

Asked again about whether coeliac is inherited - explained that Aoife should also be tested.

Did phoned the ward twice after hours. Nursing staff have noted he is not to be given clinical information by phone per the current arrangement.

Plan: discharge tomorrow if oral intake maintained.

Dietitian to review before discharge.
