

BYRNE, Thomas (UR 4471902), 8y

Reviewed on morning round with his mother Sandra present. Weight 21.4 kg, tracking along the 10th centile, up from the 3rd at last review.

Adherent to gluten-free diet. No abdominal pain reported since January.

Family history revisited: sister Aoife Byrne (UR 4471903) carries the same coeliac diagnosis, confirmed on serology last year. Maternal grandmother reportedly had "stomach trouble" but was never formally diagnosed.

Sandra reports Thomas's father Gerald has been arriving intoxicated at contact visits and that she has raised this with her solicitor.

Bed 4 (Liam Ferreira) discharged overnight, so Thomas has moved across to the window bed at his request.

Reviewed with Dr Helen Nkemelu, Consultant Paediatrician (ext 2214).
Dietitian review booked for 21/03.
