Dr Helen Nkemelu
General Paediatrics
Camberwood Children's Hospital

Dear Helen,

Re: Thomas Byrnes, DOB 14/03/1990, UR 4471902

Thank you for your summary of April last year. I reviewed Thomas today with his mother Sandy Byrne. He has grown 6 cm since discharge and remains on the gluten-free diet without complaint.

Mrs Byrnes mentions the family court matter is ongoing and that contact with his father is now supervised. She asked whether the hospital would provide a letter for her solicitor; I have said this should come from your team.

One further matter. The school has again raised concerns, this time through the school nurse rather than the earlier notifier. I have not recorded the detail here as I understand it duplicates what the Department already holds.

I would be grateful if you could see Thomas again before the winter term.

Kind regards,

Dr Anwar Siddiqui
